LEA

Academic Performance Index (API)

- Index ranging from 200 to 1000 that summarizes school's and LEA's performance based on STAR
- Based on a "growth model" which measures academic success on the basis of how much a school or LEA improves
- LEAs do not receive API growth targets. Schools within the LEA must increase API scores by 5% of the difference between the school API and 800 or maintain a score above 800
